QUALITY POLICY

The vision of CO.BO.T S.r.l. is the assembly and production of windings for distribution and power transformers for third parties, to high quality standards, forming part of a dense network of qualified suppliers. CO.BO.T is part of the BRUSH group (sole shareholder BRUSH GROUP LTD), with which it shares standards, investments and growth on international markets. The company serves a large, long-standing and consolidated customer base, both nationally and internationally, and adopts an approach focused on the continuous improvement and optimisation of its performance and management. CO.BO.T, established in Italy for almost 30 years, is synonymous with quality, safety and reliability, introducing new manufacturing technologies, modern facilities, as well as extensive experience and professionalism. The company emphasises quality, both in the materials it sources and in its production and customer relations, ensuring efficiency and punctuality in deliveries. CO.BO.T.'s wide range of products mainly includes windings from 25 kVa to 120 mVa, with the assembly of the active part of the transformers.

To continue with what has just been described, CO.BO.T SRL has set itself the following objectives:

- Entrust the Quality Management System Manager with full responsibility and authority to ensure compliance with the provisions of the QMS.;
- Periodically monitor the QMS through internal audits in order to assess compliance with the system.;
- Constantly monitor customer satisfaction in order to improve their perception;
- Implement process monitoring, continuous improvement of the QMS and reduction of inefficiencies in the organisational and technical management of the company;
- Promote staff competence, awareness and participation, keeping up to date with technological developments in the sector;
- Ensure the health and satisfaction of company staff and the creation of a climate of constructive collaboration;
- Evaluate suppliers in order to guarantee the quality of products purchased and subsequently supplied to customers;
- Place risk management at the centre of company activities, with a commitment to internal communication, continuous training, and the consistency and accuracy of information flows;
- Carry out and update staff training and education with specific reference to the tasks performed, raising awareness among staff in the performance of their duties.

The tool that CO.BO.T SRL intends to use to achieve the above is a Management System compliant with the UNI EN ISO 9001:2015 standard, which improves its effectiveness over time through the pursuit of objectives and related improvement plans, consistent with this policy..
